1. The abstract of the disclosure is objected to because legal phraseology is used in this paragraph (i.e., "comprising"). Correction is required. See MPEP § 608.01(b).

2. The disclosure is objected to because of the following informalities:

The terms "multiplexer", "complimentary", and "compliment" are misspelled in the entire the specification, abstract and claims.

Appropriate correction is required.

3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim language is vague and indefinite. For instance, although the independent claims 1 claims "[a]n apparatus comprising: THREE ELEMENTS", the claim fails to recite the necessary detail physical structures connection between THREE ELEMENTS and the functions of THREE ELEMENTS nor are there any recitation describing how such an apparatus (or elements) is actually provided in the ****apparatus****. Sufficient detail apparatus or elements must be recited to adequately describe and constitute the proposed apparatus.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cited references are art of interest.
